19. **free** – Memory usage
20. **top** – Live process monitor
21. **head** – Show first lines of a file
22. **tail** – Show last lines of a file
23. **grep** – Search text patterns
24. **find** – Search files and directories
25. **chmod** – Change file permissions
26. **chown** – Change file owner
27. **df** – Disk space usage
28. **du** – Directory size
29. **free** – Memory usage
30. **top** – Live process monitor
31. **head** – Show first lines of a file
32. **tail** – Show last lines of a file
33. **grep** – Search text patterns
34. **find** – Search files and directories
35. **chmod** – Change file permissions
36. **chown** – Change file owner
37. **df** – Disk space usage
38. **du** – Directory size
39. **free** – Memory usage
40. **top** – Live process monitor
41. **head** – Show first lines of a file
42. **tail** – Show last lines of a file
43. **grep** – Search text patterns
44. **find** – Search files and directories
45. **chmod** – Change file permissions
46. **chown** – Change file owner
47. **df** – Disk space usage
48. **du** – Directory size
49. **free** – Memory usage
50. **top** – Live process monitor
51. **head** – Show first lines of a file

- 52. **tail** – Show last lines of a file
- 53. **grep** – Search text patterns
- 54. **find** – Search files and directories
- 55. **chmod** – Change file permissions
- 56. **chown** – Change file owner
- 57. **df** – Disk space usage
- 58. **du** – Directory size
- 59. **free** – Memory usage
- 60. **top** – Live process monitor
- 61. **head** – Show first lines of a file
- 62. **tail** – Show last lines of a file
- 63. **grep** – Search text patterns
- 64. **find** – Search files and directories
- 65. **chmod** – Change file permissions
- 66. **chown** – Change file owner
- 67. **df** – Disk space usage
- 68. **du** – Directory size
- 69. **free** – Memory usage
- 70. **top** – Live process monitor
- 71. **head** – Show first lines of a file
- 72. **tail** – Show last lines of a file
- 73. **grep** – Search text patterns
- 74. **find** – Search files and directories
- 75. **chmod** – Change file permissions
- 76. **chown** – Change file owner
- 77. **df** – Disk space usage
- 78. **du** – Directory size
- 79. **free** – Memory usage
- 80. **top** – Live process monitor
- 81. **head** – Show first lines of a file
- 82. **tail** – Show last lines of a file
- 83. **grep** – Search text patterns
- 84. **find** – Search files and directories
- 85. **chmod** – Change file permissions
- 86. **chown** – Change file owner
- 87. **df** – Disk space usage
- 88. **du** – Directory size
- 89. **free** – Memory usage
- 90. **top** – Live process monitor
- 91. **head** – Show first lines of a file
- 92. **tail** – Show last lines of a file
- 93. **grep** – Search text patterns
- 94. **find** – Search files and directories
- 95. **chmod** – Change file permissions
- 96. **chown** – Change file owner
- 97. **df** – Disk space usage
- 98. **du** – Directory size
- 99. **free** – Memory usage
- 100. **top** – Live process monitor
